Date: 20 July 2022

IMPACT

In this challenge, more than 30 change makers from all over the world collaborated for 8 weeks to build the AI solution

Omdena

Real World AI Project

The Project:
Using AI To Support Affordability Of Oncology Immunotherapy Treatment

CERTIFICATE OF ACHIEVEMENT

THIS IS PRESENTED TO

Osagie Eboigbe

| ML Engineer

For collaborating in the Omdena AI challenge in collaboration with the impact start-up Mango Sciences. Within two and half months, the team developed a predictive model and dashboard, which predicts and displays the Time To Next Treatment (TTNT) curve for individuals or groups of patients.
