ABOUT ME

Micrososoft certified AI Engineer familiar with gathering, cleaning and organizing data for use by technical and non-technical personnel. Advanced understanding of statistical, algebraic and other analytical techniques. Highly organized, motivated and diligent with significant background in machine learning. AWS certified big data solution architect with 2+ years of experience driving information management strategy. Strategized, designed, and deployed innovative and complete security architecture for cloud data protection for companies. Seeking to leverage high-level understanding of Amazon Web Services global infrastructure and service migrations to become the solution architect.

EDUCATION AND TRAINING

[09/2017 – 10/2019]

Master Financial Engineering

Worldquant Unviersity   https://www.wqu.edu/

City: New orleans
Country: United States

[09/1993 – 12/1998]

Bachelor in Chemical Engineering

University of Benin   https://www.uniben.edu/

City: Benin
Country: Nigeria

WORK EXPERIENCE

[01/2023 – Current]

LEAD MACHINE LEARNING ENGINEER/AWS DEVOPS ENGINEER

OCTAVE ANALYTICS

City: Lagos
Country: Nigeria
• Designing AI systems to solve complex problems, improving their efficiency, and ensuring their reliability
• AI algorithms, to create intelligent and independent machines that can perform tasks without human intervention
• Building and maintaining autonomous systems
• Developing and implementing automation solutions
• Conducting research and development in emerging technologies

[07/2021 – 01/2023]

AWS DEVOPS ENGINEER

Muster data limited

City: Lagos
Country: Nigeria
• Design and implement solutions for monitoring, scaling, performance improvement, and configuration management of systems running SaaS applications
• Perform code reviews, evaluate implementations, and provide feedback for tool improvements

• Develop automation framework for public cloud infrastructure deployments
• Quickly troubleshoot and resolve network, hardware, software and performance issues, including rotating on call emergency response
• Working knowledge of build automation and CI/CD pipelines
• Well versed in DNS, Load Balancing, SSL, TCP/IP, networking and security • AWS architecture

[11/2018 – 06/2021]

RESEARCH DATA SCIENTIST/BUSINESS ANALYST/AWS SOLUTION ARCHITECT

Muster data limited

City: Lagos

Country: Nigeria

·Ability to use google cloud platform for deployment of machine and understand Kubernetes and kubeflow and also use Microsoft Azure for machine learning
·Conduct data regression analyses of relationship between company stock prices and industry trend achieving 15% more accurate prediction of performance previous years Utilize web scraping techniques to extract and organize competitor data.
·Update company data warehousing techniques such as data recall and segmentation, resulting in 20% increase in usability for non-technical staff members
·Modernize data streaming processes resulting in 25% redundancy reduction.
·Convert data into actionable insights by predicting and modeling future outcomes.
·Utilized MS SQL, data warehousing programs, Microsoft power BI and dashboards &visualization toolset for business intelligence and data analysis.
·Designed and edited blueprints for IT infrastructure and networking architecture according to management's demands
·Monitored existing infrastructure and architectural frameworks for performance, and made changes and updates when necessary
·Kept up to date with latest industry knowledge and news to maintain and improve enterprise and business platforms.
·Communicated target architectural plans and company roadmaps across all departments

[11/2014 – 11/2018]

DATA SCIENTIST/DATA ANALYST

EKO ELECTRICITY DISTRIBUTION PLC

City: Lagos

Country: Nigeria

• Identifying data analytics problem that offer greatest value for organization.
• Getting to know most appropriate datasets and variables.
• Generated database design to highest level of scalability and performance.
• Working with unstructured data like video and images.
• Discovering new solutions and opportunities by analyzing data

[08/1999 – 10/2014]

MILL ENGINEER

DANGOTE FLOUR MILL PLC

City: Lagos

Country: Nigeria

• Assembling of machine in mill.
• Organize department and delegate responsibility for particular phases of Rolling Mill engineering work so as to ensure orderly processing of rolling mill contract sand rolling
• Plan, organize and execute flour mill based on production requirements.
• Achieve milling capacity to best ability possible.

ORGANISATIONAL SKILLS

Use a Planner or Calendar
Schedule tasks, meetings, and deadlines to stay on track.

Break Down Tasks

Large tasks can be overwhelming. Break them into smaller, manageable steps.

Time Management

Allocate specific time blocks for tasks. Use techniques like Pomodoro (working for 25 mins, then taking a break) to stay focused.

CERTIFICATION

Microsoft Introduction to Microsoft Azure Machine Learning Scholarship

Amazon web service machine learning scholarship

Microsoft Certified: Azure AI Fundamentals

https://www.credly.com/badges/db737610-d515-4ef4-b5c7-c9e37ba2d8d2?source=linked_in_profile

The Data Incubator in partnership with Worldquant University Data Science Certification: Machine Learning and Statistical Analysis I

The Data Incubator in partnership with Worldquant University Data Science Certification: Scientific Computing and Python for Data Science I

Cisco Networking Academy Certified Cisco Networking Academy (Routing & Switching)

Cisco Networking Academy Certified Cisco Networking Academy (Information Technology Essentials 5.0)

AWS Certified Cloud Practitioner
